

WHAT WE DO

FXB is an international development organization which works to create a world where **everyone has a chance not just to survive but to thrive.** **Our mission** is to provide the poorest of the poor families with the tools and support they need to become self-sufficient and give their children a future. Through our **FXBVillage Model**, we don't just hand people money. We hand them a **multidimensional solution to permanently escape extreme poverty.**

WHERE WE WORK

FXB is headquartered in Switzerland, France and the USA. FXB has nine country offices, implementing programs in ten countries: Burundi, China, Colombia, India, Mongolia, Myanmar, Niger, Rwanda, South Africa, and Uganda.

HOW WE DO IT

Since FXB's founding in 1989, 17 million adults and children across 20 countries have benefited from its programs. In addition to the holistic FXBVillage Model, the organization also implements education, health and protection programs.

■ FXBVillage Program

The FXBVillage Model tackles the five drivers of poverty eradication: nutrition, health, education, housing and income. It brings the extreme poor to self-sufficiency and ensures that the participants continue to thrive after the programs' end. FXB currently operates 16 such programs in Burundi, China, Colombia, India, Mongolia, Rwanda and Uganda.

■ Education Program

Our education programs empower children and youth with the skills and knowledge they need to succeed. FXB operates education programs focusing on life skills development and vocational training in India, Myanmar and South Africa.

■ Health Program

Our health programs improve access to quality health services, disease prevention, Antiretroviral Therapy (ART), psychosocial counseling, nutrition, Water, Sanitation and Hygiene (WASH). FXB implements HIV/AIDS related programs in India and Myanmar, and WASH programs in Niger, Rwanda and Uganda.

■ Protection Program

Our protection programs aim to prevent and reduce all forms of violence and insecurity, ensuring a safe, secure and protective environment for children and women. FXB implements children/women's rights and protection programs in Myanmar, India, Rwanda and South Africa.
